

"Repeating the HPAT was a daunting experience, especially after coming so close to Medicine the previous year, then I heard about Ashfield's preparatory courses through a friend. I chose an online course which meant I got all of the knowledge and hints while learning from the comfort of my own home. The tips I learned from the course were a huge help in my preparation, as well as the mock HPAT which gave me an idea of where I needed to study, and the refresher day which answered any questions I had. I am very grateful to Ashfield and the teachers which helped me to gain a place in Medicine this year. Thanks Ashfield!"

1st Medicine (TCD) - HPAT 190

"Anyone seriously interested in achieving top class H-PAT results should highly consider taking the Ashfield College course. The well rounded foundation of knowledge provided is far above the standard and I found the revision day particularly useful to refocus my mind in the final lead up to the exam! There were so many concepts that I tried to learn on my own, that I now 'get' because of the instruction and exercises within this course."
